

## SQL PROJECT

### 1. DIGITAL MUSIC STORE ANALYSIS

Objective: This project is a beginner level project and in this we'll analyse music playlist database. With the help of sql, we can help the store understand its business growth by answering some questions.

#### QUESTION SET 1

- WHO IS THE SENIOR MOST EMPLOYEE BASED ON JOB TITLE?
- WHICH COUNTRIES HAVE MOST INVOICES?
- city with highest sum of invoice totals with city name?

#### QUESTION SET 2

- TO RETURN EMAIL, FIRST NAME, LAST NAME AND GENRE OF ALL ROCK MUSIC
- NAME AND MILLISECONDS FOR EACH TRACK, ORDER BY SONG LENGTH WITH LONGEST SONGS
